

Running Effective Meetings

Modified ATLAS Protocol

A protocol designed for use when data is a focal point for discussion. The protocol supports equity of voice and allows all members to describe the data, make inferences, and share implications for future work.

Modified ATLAS Protocol

Group/Team:

Data being reviewed and analyzed:

Individually review the data (5 minutes) and then, as a group, answer the following questions.

What do you see?

- What is the data showing us?
- State only facts and numbers. Avoid inferences or conclusions.
(5 minutes total)

Record:

What does the data suggest?
(5 minutes)

Record:

What are some implications or next steps?
(5 minutes)

Record:

Based on the School Reform Initiative ATLAS Protocol.
