Documentary Overview**

Purpose

Network for College Success partner schools are committed to implementing powerful student-centered practices. Tool Set A showcases different ways to support students as they integrate their identities into the context of college and career planning. This work is connected to the adolescent development research in [Understanding Research & Applying Data: Tool Set B](#).

How & When to Use

Counselors and other educators can use the following tools as part of a school-wide plan to address students' social-emotional learning needs, which is a crucial part of preparing them for life after high school. The Freshman Passport can help students begin planning for the future early on, learning about and tracking postsecondary milestones so they know what to expect senior year. The Behavior, Attendance, & Grades (BAG) Report is a quick summary of a student's overall progress. BAG Reports provide students with a clear picture of how they are doing in school and can be used for meaningful educator-student conversations on postsecondary goals. Tool Set A contains practical, student-centered tools and resources to create a college-going culture in your school or district.

Behavior, Attendance, & Grades (BAG) Report

A sample BAG Report from North-Grand High School that provides a snapshot of a student's progress in terms of behavior, attendance, and grades. This can be used with students in any grade level. Network for College Success partner schools frequently use BAG Reports to engage in productive conversations with students on their successes and to determine areas in need of support.

Overview of Social/ Emotional Learning (SEL) Small Group Plan

A scope and sequence of a social-emotional learning and post-secondary planning support group for young women in Kelly High School.

Overview of Social/Emotional Learning (SEL) Small Group Plan

Sample from Kelly High School

Focus

Postsecondary and Social/Emotional Learning

Inspired by the book *Ready, Willing, and Able: A Developmental Approach to College Access and Success* (Mandy Savitz-Romer and Suzanne M. Bouffard)

“How can an understanding of adolescent development inform strategies and practices for supporting first-generation college goers?” In *Ready, Willing, and Able*, Savitz-Romer and Bouffard focus on the developmental tasks and competencies that young people need to develop in order to plan for and succeed in higher education.

These include identity development; articulating aspirations and expectations; forming and maintaining strong peer and adult relationships; motivation and goal-setting; and self-regulatory skills, such as planning.

Objective

To build college-going identity for senior students as they explore college options and make college decisions.

Target students:

- 10 *Somewhat Selective** college access female students (GPA between 2.5 and 2.9)
- English Language Learners (ELL)
- At least 85% attendance
- Preferably not involved in other college access programs offered at Kelly High School

*Based on the UChicago Consortium College Access Grid from the *Potholes* report (See the [Understanding Research & Applying Data: Tool Set A](#) in this Toolkit for more information.)

Duration

12 sessions. One class period per week and alternating between 5th and 6th period classes.

Genogram Lesson Plan and Sample

A lesson plan to help students map out a genogram that focuses on their family's education, career choices, and values. A sample of a student's genogram is also included as a reference.

Genogram Lesson Plan and Sample

Goal

To help students understand the influence that their family's education, career choices, and values can have on their postsecondary and career decisions.

Objective

Students will learn how to map out a genogram that focuses on their family's education, career choices, and values.

Materials

- 1 sheet of white paper and pencil per student
- Optional Homework handout

Time

45 minutes

Instructions

The Counselor will discuss the following:

- Different family structures
 - Education levels
 - Family values
 - Postsecondary and career decisions
1. The Counselor starts by discussing how our families can affect our college and career decisions. We might not notice how a family member can have either a positive or negative effect on our decisions. We may even be influenced by the jobs our family members have, as well as their attitudes towards work and education.
 2. The Counselor explains how to draw a genogram and will draw their own genogram as an example. The Counselor will also give the students a sample genogram for their records.
 3. The Counselor distributes sheets of paper and pencils.

4. Students will begin to create their own family and career genogram. It can include the education and/or career choices of their parents, guardians, siblings, aunts, uncles, and grandparents. The Counselor should encourage students to go back as far as they can, to great-grandparents or further if possible. Students should focus on those individuals that are emotionally closest to them. If students do not know someone's name or job right now, they can leave that space blank. Students may also complete genograms later with their families' assistance.
5. The Counselor allows time for students to complete their genograms and assists students as needed.
6. The Counselor holds a group discussion about what the students notice in the genograms about their family structure, values, patterns of education, and career decisions.

Sample Group Discussion Questions

1. Do you notice a pattern of family structure?
2. Did your parents finish high school?
3. Did your parents finish college?
4. Do you notice a pattern of level of education?
5. What are some barriers that your parents or relatives faced that prevented them from graduating from high school or college?
6. What are some of your relatives' jobs or careers?
7. Do you notice a pattern of careers?
8. Do you know why your parents choose the job or career they have?
9. Do you think that you are more likely to pursue a career that someone in your family already has? Is it because those are the careers you know most about? Why or why not?
10. Are there any careers that your family wishes you would pursue? Do you want to pursue those careers? What is their reasoning for this? How does it make you feel?
11. What are some barriers that your parents or relatives faced that prevented them from getting the job or career they wanted?
12. Think about your parents' attitudes/values towards education for a minute. Write them down on the back of your genogram.
13. Do you notice a pattern among the family values listed?
14. Do you think that, generally speaking, children are influenced by their parents to go to college? Or not to go to college? Why or why not? Is this good or bad?
15. Do you see yourself graduating from college? Why or why not?
16. Do you know what career you would like to have?

Optional Homework

If needed, complete your genogram with your family to obtain more of their background information.

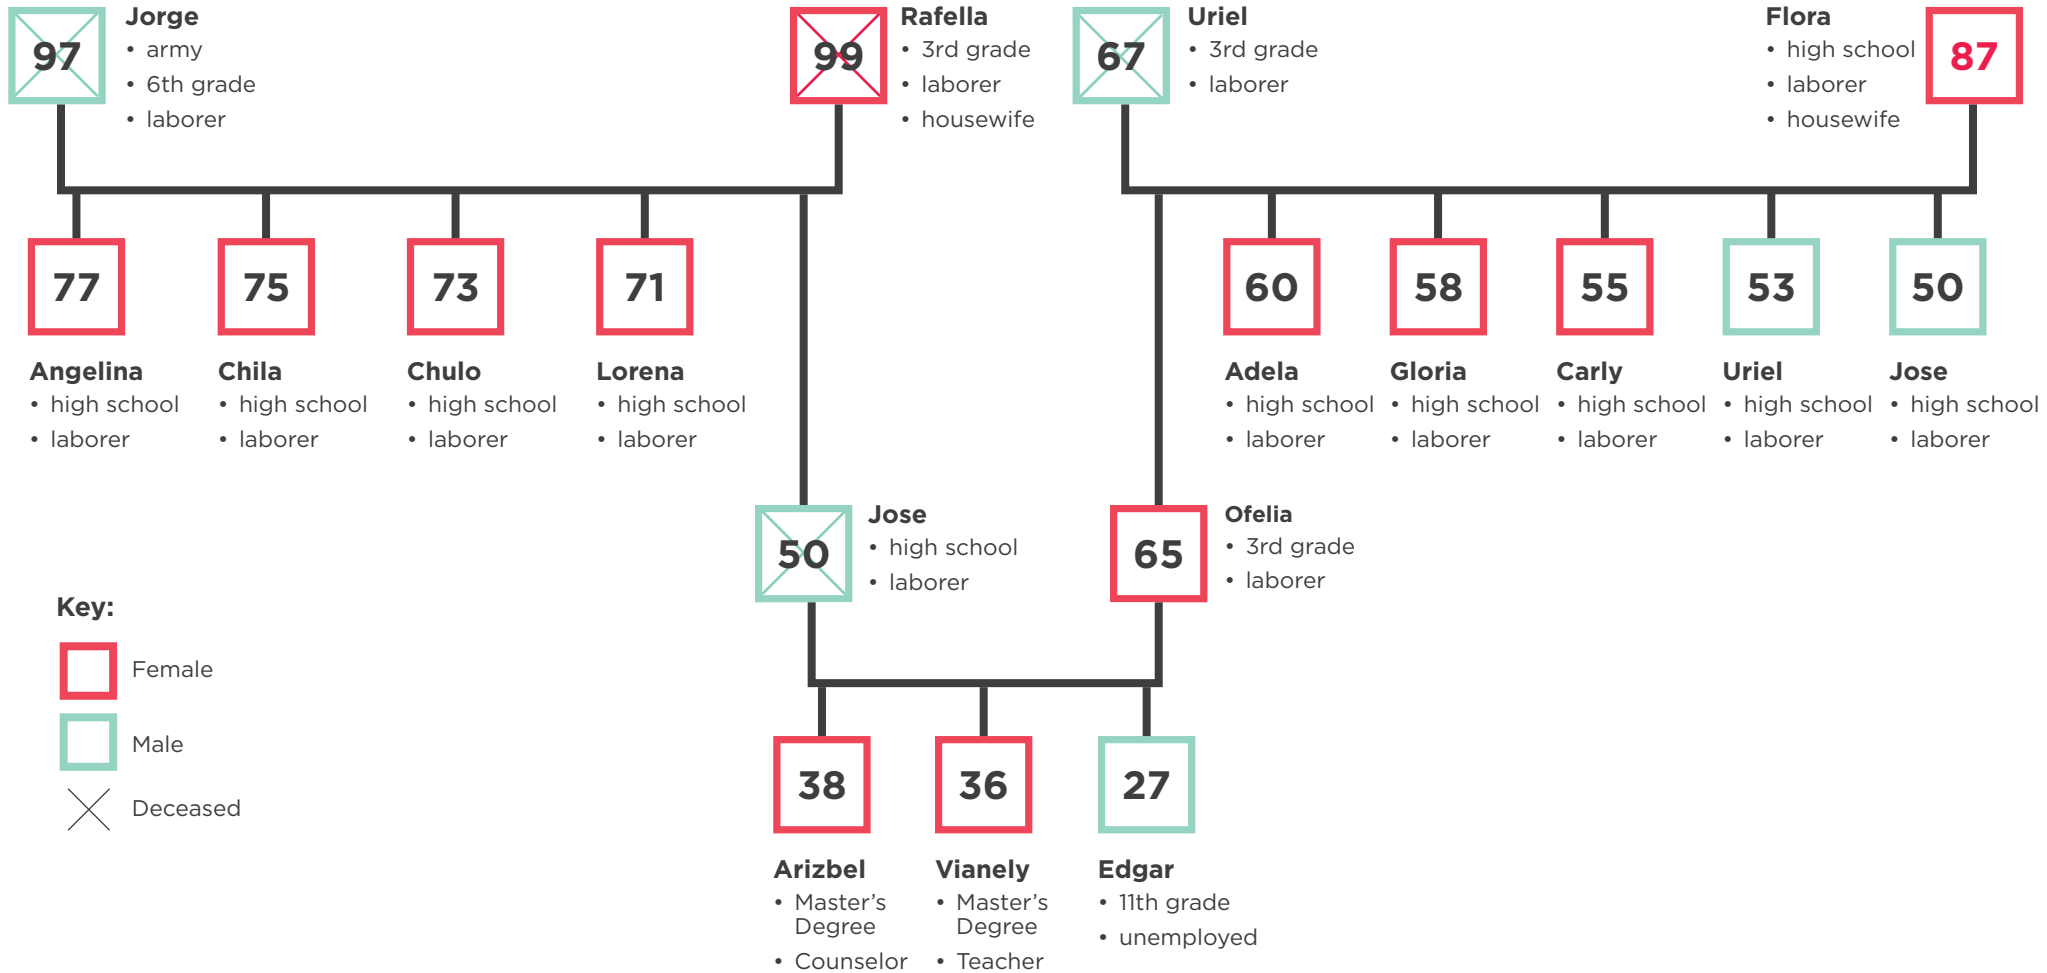

The second part of your assignment is to interview one person in your family about his/her job history and how he/she decided on a career.

Student Name: _____ Division: _____ Date: _____

Family Member Interview Questions

1. What grade level did you complete?
2. Did you want to graduate from high school?
3. Did you want to go to college? Why or why not?
4. Did you graduate from college and what did you study? Why?
5. Were there any barriers or responsibilities that prevented you from graduating from high school and/or college? Explain.
6. What career did you want to have? Why?
7. Do you feel that you accomplished your educational goals? Explain.
8. Did you feel that you accomplished your career goals? Explain.
9. Are you happy with your job/career? Why or why not?
10. What do you wish for me?

First Generation Documentary Overview

This film follows four first-generation high school students and chronicles their journeys as they encounter barriers and successes.

First Generation Documentary Overview

Synopsis

An award-winning documentary narrated by Golden Globe nominee Blair Underwood, *First Generation* tells the story of four high school students—an inner city athlete, a small town waitress, a Samoan warrior dancer, and the daughter of migrant field workers—who set out to break the cycle of poverty and bring hope to their families and communities by pursuing a college education.

[Watch the 1-hour version here >>](#)

[For more information >>](#)

Shot over the course of three years and featuring some of our nation’s top educational experts (Richard Kahlenberg, The Century Foundation; J.B. Schramm, College Summit; Dr. Bill Tierney, University of Southern California), the film explores the problem of college access faced by first-generation and low-income students and how their success has major implications for the future of our nation.

First Generation was directed and produced by Adam and Jaye Fenderson and made possible in part by the Lumina Foundation for Education and GOAL 2025, whose mission is to increase the percentage of Americans with high quality degrees and credentials to 60% by 2025. The film was an official selection at film festivals across North America and had its world premiere at the Heartland Film Festival, where it was nominated for a Crystal Heart Award.

It won “Best Documentary” and “Best Soundtrack” at the Idyllwild International Festival of Cinema, and a “Special Jury Award for Social Impact” at the Napa Valley Film Festival. *First Generation* has been embraced far and wide as a tool to spark the conversation about what it takes to increase the college-going and success rate for low-income and first-generation students.
