

The Network for College Success

is committed to partnering with you to improve student outcomes in your district or school. Research has identified the most reliable way to increase graduation and college enrollment rates is to ensure successful student transitions into high school. Improved academic outcomes for students can be achieved with a strategic commitment to building the capacity of teachers, administrators, and support staff to lead this work. As an equity-centered organization, NCS can collaborate with you to co-create school environments that foster the success of traditionally under-served students.

Our Approach

The Network for College Success has a successful approach for collaborating with districts and schools that can be customized to meet your needs. Your goals will determine the scope, length, and frequency of our partnership. We will work with you to develop and implement a clear strategy so more students succeed in and graduate from high school ready for college.

- ◆ Focused on Equity
- ◆ Based on research and data
- ◆ Team development
- ◆ Sustainable
- ◆ Collaborative
- ◆ Interactive and engaging learning
- ◆ Practical

Network for College Success Services and Supports

Collaborative Needs Assessment

Conduct a collaborative needs assessment through facilitated meetings with district and/or school leaders. Assessment will include: identification of goals and priorities; school site visits; examination of student data and the impact of particular practices; and determination of needed supports.

Data Strategy

Analysis and technical assistance on the latest research and data to assess whether district or school systems and practices are supporting all students to succeed.

District or School Professional Development

Professional learning to examine the research and data on the key factors for student success. Teams will also explore effective and equitable practices for implementation.

Equity-Based Leadership Workshop

An intensive experience designed to push your thinking, provoke questions, prompt critical reflection, and collectively make deeper meaning of how equity work can be applied to your practice.

Leading Professional Learning Communities Workshop

Training for staff leaders responsible for developing professional learning communities and implementing effective adult collaboration. Participants will gain strategies for leading equity-centered work among adults as well as practice in concrete tools and protocols.

National Freshman Success Institute

Seven days of powerful learning with teams of educators from across the country to explore the research and practice on how to effectively transition students into high school in order to meet their developmental needs and increase graduation rates.

Ongoing Coaching and Consultation

The Network for College Success offers customized services to meet the needs of different educators to ensure sustainable and equitable improvements.

Retreat for Key Leaders

Co-plan and co-facilitate with key leaders a retreat to develop a strategic plan for supports and set the stage to implement this work more broadly.
