ABOUT THE NETWORK FOR COLLEGE SUCCESS

The Network for College Success (NCS) envisions high schools that continuously cultivate collaboration, powerful learning, and a culture of high achievement to prepare all students for college and career success.

NCS uses research to design and facilitate professional learning that builds the capacity of school leaders to greatly improve student outcomes. Through cross-school learning communities and job-embedded coaching, we support district leaders, principals, teachers, and counselors to:

- Strengthen school leadership
- Improve teaching and learning
- Support freshmen transitioning into high school
- Prepare students for quality postsecondary options
- Support culture and climate
- Integrate research and data into daily practice

For more information about NCS, please go to <u>ncs.uchicago.edu.</u>

NCS Core Values and Beliefs

- Educators have the capacity to solve their own problems when there is actionable data, research-based strategies, collaborative teams, and professional trust.
- School-based leaders drive change in schools. Increasing their capacity as leaders is the essential lever for improvement.
- Students' intellectual capacity is not static. It grows when challenged and develops when teachers explicitly build academic mindsets and <u>non-cognitive skills</u>.
- Schools improve when educators make their practice public and critically examine their work collaboratively. Trust is essential to people's willingness to engage in this process.
- Data analysis is a powerful tool for school improvement when used to trace causes, seek solutions, and guide change. Data can be destructive when only used to judge and punish.
- Challenging educators to interrupt inequities in schools and districts is vital to improving schools. All students from all backgrounds deserve equitable educational outcomes.

About the Toolkit

The NCS Freshman On-Track Toolkit is a collection of protocols, reports, resources, and artifacts used by our experienced Coaches in their daily work to help schools better support students through the critical first year of high school.

<u>A Capacity-Building Model for School Improvement</u> paper accompanies the Toolkit, capturing the NCS model and history, and situates our work within cur-rent research. The Toolkit is organized around four key Components:

UNDERSTANDING RESEARCH & APPLYING DATA

PREPARING TO LEAD

SETTING CONDITIONS FOR SUCCESS

IMPLEMENTING SCHOOL-BASED TEAMS

For each of the Components, you will find a collection of Tool Sets, or bundles of tools (including videos), organized to help you achieve your Freshman On-Track goals.

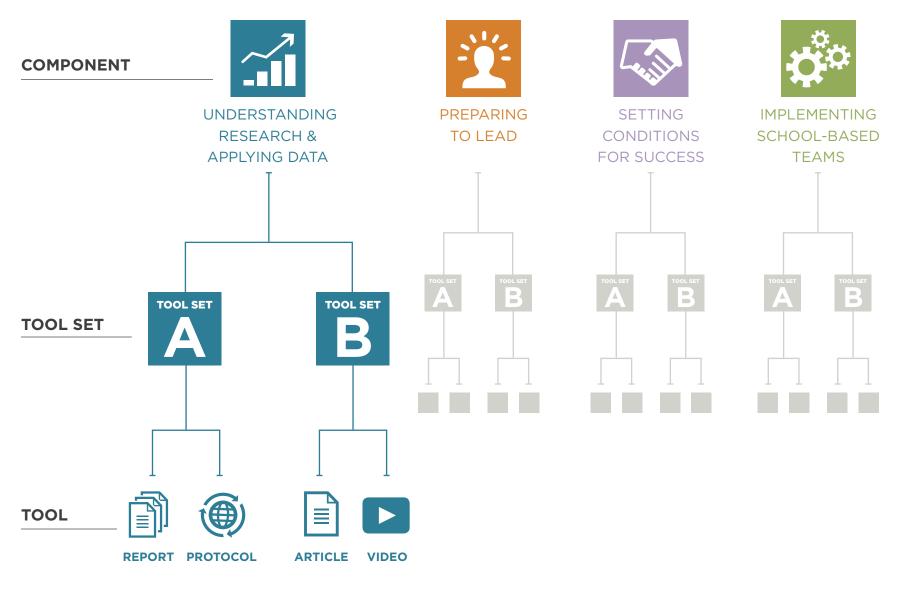

What is On Track?

In Chicago, a student is considered On Track if he or she has accumulated five full credits (ten semester credits) and has no more than one semester F in a core subject (English, math, science, or social science) by the end of freshman year. These represent the criteria to become a sophomore in Chicago Public Schools. Students who are On Track are far more likely to graduate from high school than their off-track peers.

On Track may be defined differently in your school or district. For more information about the origins of On Track in Chicago, please refer to the Understanding Research & Applying Data Component in this Toolkit.

Toolkit Organization

Acknowlegements

The Network for College Success would like to acknowledge the dedicated professionals at each of our partner high schools who make their practice public and share their expertise, tools, and insights. Without them, this Toolkit would not be possible.

We would like to thank the leaders at Chicago Public Schools for their collaboration, and their ongoing commitment to the Freshman On-Track work and improving students' academic attainment.

We would also like to thank our partners at the Urban Education Institute, including the UChicago Consortium for School Research, UChicago Impact, and The To&Through Project.

Finally, we would like to express our appreciation to the Bill & Melinda Gates Foundation for their thought partnership and for providing the Network for College Success with the resources to reflect on our work with schools and produce this Toolkit and the accompanying *A Capacity-Building Model for School Improvement* paper.

A Note about Creative Commons

Many of the tools in the NCS Freshman On-Track Toolkit are original works or adaptations with the permission of the original creator. Because all of the tools have been compiled and presented here in the interest of sharing best practices, original works have been marked with a <u>Creative Commons</u> copyright license.

In contrast to a traditional copyright, where all rights are reserved to the creator, our purpose in using a Creative Commons license is to make it easier for others to share and use the material. We encourage you to openly use and share the original works found in this Toolkit. You may also adapt the tools marked with a Creative Commons license, provided you share those adaptations in the same open, non-commercial manner.

Getting Started: The NCS Freshman Success Framework

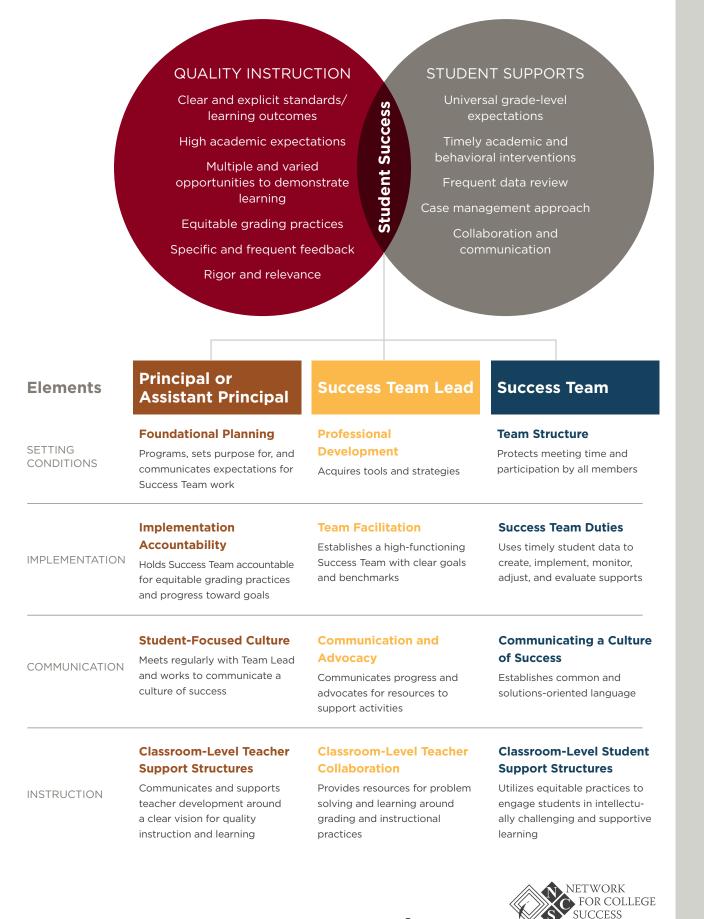

In 2009, the Network for College Success developed the Freshman Success Framework to provide our partner schools with guidance on how to establish a high-functioning system of support for students entering high school. The three dimensions of the system – the actions of the team, its leader, and the principal – are vital for helping freshmen successfully transition into high school.

First, take a look at the Conceptual View of the Freshman Success Framework on the next page. It provides a high-level overview of the content, conditions, roles, and functions of freshman success work.

Next, dig into the the actual Freshman Success Framework, which is the comprehensive roadmap for leading this work in your school. The Framework details the necessary elements to create and implement a high-functioning freshman success program. Done effectively, this will result in high freshman course performance and ultimately high graduation rates.

Freshman Success Framework: Conceptual View

Freshman Success Framework

	Outcomes: Ways of Bei	ng		
Goals of Success Model		Guiding Beliefs for Student Success		
 Improve grade-level On-Track rates Improve student course performance as reflected in GPA 	 Increase college readiness and access indicators for students 	 Children and adults can learn and achieve Relationships are essential to student success High and future-minded expectations must be held for all students 	 Transition plans assist student acclimation to school culture Opportunities for students to demonstrate success are varied and plentiful 	 Data-informed decisio Goals and solution-bas orientation Capacity development Shared leadership

Freshman Success Team in Action: Ways of Doing							
Elements	Principal		Team Lead		Success Team		
Setting Conditions	provides foundational knowledge on freshman success work for core set of grade-level teachers • Identifies team leadership (Team Lead,	 Provides and protects team meeting calendar, with regular and sufficient time for 1) data analysis and 2) intervention development, monitoring, and adjustment Provides time for General Education and Special Education teachers, counselor(s), data technician, student advocate or dean, and/or administration to attend regularly scheduled meetings 	 Acquires foundational knowledge on the importance of freshman course performance as well as tools and strategies to lead the Success Team With principal and data technician, establishes Success Team meeting calendar that includes regular and sufficient time for 1) data analysis and 2) intervention development, monitoring, and adjustment 	• With principal and Success Team, sets freshman success goals for On-Track and student connection, and develops benchmarks to monitor progress	 Develops effective meeting strategies, such as establishing a mission state- ment and clear purpose, and building norms and action-oriented agendas Shares Success Team roles and responsibilities conducive to freshman success work With principal and Team Lead, establishes foundational knowledge, sets purpose, and creates freshman success goals for On-Track and student connection 	 Engages in regular, calendared Success Team meetings to 1) analyze data and 2) develop, monitor, and adjust interventions Includes General Education and Special Education teachers, counselor(s), data technician, student advocate or dean, and/or administration 	
Implementation	success-related data, such as point- in-time On-Track data • Provides professional development and training opportunities on the transition	 Reviews and interrogates interim freshman success-related data in light of Success Team goals, and strategizes with team leadership around next steps Holds teachers accountable for imple- menting equitable grading practices 	• Develops action-oriented meeting agendas that consistently address freshman success goals generally and intervention development, tracking, and evaluation specifically	 Establishes team meeting conditions conducive to the successful execution of Success Team duties Works with data technician to bring actionable student-level data at regular intervals 	 Reviews incoming class performance data to develop early and targeted supports for students Develops, implements, tracks, and evaluates Tier 2 interventions, making adjustments when appropriate 	 Refers students to appropriate level of intervention Reviews actionable student-level data in order to provide appropriate support 	
Communication	• Provides space for freshman success- related communication on a regular basis	• Explicitly supports Success Team efforts to communicate a culture of success for all	 Regularly communicates strategies and progress toward freshman success goals to Success Team, administration, parents, and students Advocates for resources to support freshman success efforts 	• Coordinates freshman success assemblies, parent nights, and celebrations toward On-Track and student connection goals	 Maintains strengths-based and action-oriented communication to support students Conducts joint parent/student conferences 	 Celebrates student and adult successes around On-Track and student connection goals Engages faculty in frequent communication on student progress and successful strategies 	
Instruction	 Communicates a clear vision for instruction Supports teacher development through proactive observation and constructive feedback around instructional practice 	 Provides learning opportunities on classroom practices that support students' successful transition to high school 	 Seeks out instructional and intervention resources, readings, and tools to improve teacher and Success Team practice 	• Designs and facilitates Success Team discussion, problem solving, and sharing around grading and instructional strategies	 Creates, implements, and evaluates instructional strategies around student engagement Provides multiple and varied opportunities for students to exhibit mastery or be assessed 	• Utilizes transparent and equitable grading practices that communicate grade-level expectations and student achievement	

NATIONAL FRESHMAN SUCCESS INSTITUTE

Resulting School Culture

- sion making
- based
- ent at all levels
- Accountability for results while supporting the work
- Positive working relationships amongst staff, students, and families
- Increased responsible behavior by students and adults
